

SUNDAY AUGUST 19	12:00 p.m. Registration										
	1:00 p.m. Cloud Provider Bake-Off										
MONDAY AUGUST 20	6:15 a.m. Sunrise Fun Run										
	7:00 a.m. Attendee Breakfast										
	8:30 a.m. Gartner Opening Keynote Architect Your Digital Ecosystem (Speaker TBD)										
	TRACKS	A. Cloud-Native Architecture: How to Deliver, Deploy and Operate	B. Data Center, Hybrid and Public Cloud Strategies	C. Data, BI and Analytics: Designing for Sustainability in Growing Digital Ecosystems	D. DevOps and Agility: Increase Delivered Value via Culture Change, Collaboration and Automation	E. Enterprise Applications, Digital Workplace and SaaS	F. Internet of Things Planning and Design	G. Artificial Intelligence and Machine Learning for Today's IT	H. Career Strategies for Technical Professionals	I. Radical Thinking: Disruptive and Innovative Technology	J. Computing on the Edge: Mobile and Web
	10:00 a.m.	You Are Still Not Netflix: Maximizing the Impact of Microservices in the Enterprise	The Data Center Is Dead. Long Live the Data Center.	Future-Proofing Data and Analytics Architectures for Your Digital Ecosystem	Keys for DevOps Success	Design a Better Customer Experience by Integrating Your CRM and CIAM Systems	Effective Architecture and Design of IoT	Digital Ecosystem Ethics in the Age of Artificial Intelligence			
	12:00 p.m.	How to Implement Security for Web Applications and APIs	Cloud Wars: Comparing Major Cloud Platform Providers	Make AI and ML Great With Good Quality Data	Introducing the Automation Architect	How to Meet Business Demand and Extend IT's Reach With High-Productivity PaaS	Digital Twin Integration — Challenges and Overcoming the Boulder in the Road!		You're Hired: Path to Becoming Your Organization's Artificial Intelligence and Machine Learning Architecture		
	12:30 p.m.	Delegate Lunch					TechZone Dessert Reception				
	2:30 p.m.	Top 10 Container Myths for 2018	Destination Zero: A Future Without Data Centers	How to Create a Data Strategy for Machine-Learning-Powered Artificial Intelligence	Evangelize and Cost-Optimize Your SDLC and Agile Initiatives With Metrics	Drive Innovation With an API-Based Approach to Enterprise Apps		TechDemo: Architectural Intelligence — Building Applications to Leverage Machine Learning			State of the Web: The Critical Trends in Architecture, Platforms and Frameworks
	4:30 p.m.	Designing and Managing Effective APIs	Hybrid IT and Multicloud: Coping With the New Reality	Kafka — The Essential Broker	You Are Not Spotify But Here Is What You Can Learn From It	Salesforce and Office 365: Better Together?	Architect IoT Using the Gartner Reference Model	Building an Effective AI Strategy			
	5:15 p.m.	TechZone Networking Reception

TUESDAY
AUGUST 21

TRACKS	A. Cloud-Native Architecture: How to Deliver, Deploy and Operate	B. Data Center, Hybrid and Public Cloud Strategies	C. Data, BI and Analytics: Designing for Sustainability in Growing Digital Ecosystems	D. DevOps and Agility: Increase Delivered Value via Culture Change, Collaboration and Automation	E. Enterprise Applications, Digital Workplace and SaaS	F. Internet of Things Planning and Design	G. Artificial Intelligence and Machine Learning for Today's IT	H. Career Strategies for Technical Professionals	I. Radical Thinking: Disruptive and Innovative Technology	J. Computing on the Edge: Mobile and Web
6:15 a.m.	Sunrise Yoga									
7:00 a.m.	Registration					Attendee Breakfast				
8:30 a.m.	Guest Keynote Closing the Gender Gap in Technology Reshma Saujani, Founder, Girls Who Code									
9:45 a.m.	When You Should Use Serverless Computing (And When You Should Not)	Top AWS and Azure Mistakes You'll Want to Avoid	Architecting the Logical Data Warehouse for Maximum Benefit	PlatformOps: How App Dev and I&O Must Collaborate for Microservices and DevOps Success	Office 365 Security: All the Acronyms and Third-Party Solutions Explained		Identity Analytics: How Analytics, Machine Learning and AI Are Shaping the Future of IAM		How Blockchain-Enabled Decentralized Identity Can Be Disruptive	
11:45 a.m.	Developing Cloud Native Strategies and Architectures	Production-Ready IaaS and PaaS: Cloud Shouldn't Keep You Up at Night	Metadata: The Secret Sauce Behind Successful Big Data Deployments	Data Center Automation Is No Longer an Option	TechDemo: Best Practices Cookbook for Office 365 IAM	How to Secure Your Enterprise IT From the IoT Onslaught				
12:30 p.m.	Attendee Lunch									
1:00 p.m.	TechZone Dessert Reception									
2:30 p.m.	CASB = (UEBA + DLP + AAC + TI + ATP + SIEM) for SaaS, IaaS and PaaS	TechDemo: AWS, Azure and GCP — An Identity Capabilities Assessment	Using AI/Machine Learning With Your Data Warehouse	How to Adapt Application Security Practices for DevOps	Preparing Your Content, Collaboration and Mobility Initiatives for the EU General Data Protection Regulation (GDPR)		The State of AI and ML for Customer Analytics		Quantum Computing: The "In Your Face" Disruption Few Understand and Some Fear	
3:30 p.m.	Cloud Native Infrastructure Monitoring: The Three Pillars of Observability	Hyperconvergence Today: A Technical Market Guide	Choosing the Right Cloud Platform for the Next Generation of Operational Databases	How Teams Can Leverage Cloud to Accelerate the Adoption of DevOps Practices				The Three Secret Virtues of Great IT Contributors: Finding and Cultivating Expertise	Architecting AI and ML in the Cloud	
4:30 p.m.	Designing and Operating DevOps Workflows to Deploy Containerized Applications	How to Select Hybrid Cloud Storage Architectures?	Walk-Through of Practical Data Lake Reference Architectures to Secure and Govern Your Data	Secure Privileged Identities and Secrets Throughout the DevOps Pipeline	How to Build an Effective Email Security Architecture		Assessing AIOps Platforms for Proactive IT Operations Management			How to Evolve Your Mobile Security Strategy in 2018
5:30 p.m.	Hospitality Suites

WEDNESDAY AUGUST 22	TRACKS	A. Cloud-Native Architecture: How to Deliver, Deploy and Operate	B. Data Center, Hybrid and Public Cloud Strategies	C. Data, BI and Analytics: Designing for Sustainability in Growing Digital Ecosystems	D. DevOps and Agility: Increase Delivered Value via Culture Change, Collaboration and Automation	E. Enterprise Applications, Digital Workplace and SaaS	F. Internet of Things Planning and Design	G. Artificial Intelligence and Machine Learning for Today's IT	H. Career Strategies for Technical Professionals	I. Radical Thinking: Disruptive and Innovative Technology	J. Computing on the Edge: Mobile and Web
	7:00 a.m.	Attendee Breakfast									
	8:30 a.m.	Guest Keynote (TBA)									
	9:45 a.m.	How to Deploy Kubernetes on Your Existing Infrastructure	Your Multicloud Playbook: Strategy, Architecture, Use Cases and Deciding Which Application to Migrate to Which Cloud	To Create Your Digital Business You May Need to Migrate Your DBMS — Here's How	Agile Development Requires Agile Testing		Get Beyond the LPWA Hype and Choose the Right Communication Technologies for Your IoT Edge	Out With Information Architecture! The Future Is Machine Learning and AI-Powered Insights	Career Architecture for Technical Professionals		
	11:30 a.m.	Comparing Leading Cloud-Native Application Platforms: Pivotal Cloud Foundry and Red Hat OpenShift	Adaptive Governance: Coping With the Challenges of Cloud Computing	Blockchain Is Dead, Long Live Distributed Ledger Technology!	Agile in the Wild: Keys for a Successful Agile Safari	Comparing Integration Patterns for Architectures That Span On-Premises and Cloud Deployments	IoT Is Becoming a Standard Cloud Offering: Time to Think Differently!				
	12:15 p.m.	Attendee Lunch									
	12:30 p.m.	TechZone Dessert Reception									
	2:15 p.m.	What Can Go Wrong When Architecting Cloud-Native Applications and How to Prevent It	Double-Clicking on the Gartner Cloud Management Wheel	The Future of Data Visualization	Refactoring Monolithic Software to Maximize Development Agility and Cloud Deployment	Managing Office 365 on Mobile			Who Moved My Server? The Role of I&O in the Cloud Era		Best Practices for Migrating EMM Suites
	4:00 p.m.	Services You're Probably Not Using in the Public Cloud But Should Be	Security Hygiene: Don't Be Distracted by the Glitz and Glamour, Prioritize Getting the Basics Right	How to Select and Govern Analytics and BI Solutions in the Age of Machine Intelligence	MASA: An Agile Architecture With Integrated Apps, APIs and Multigrained Services		Leading and Planning IoT Innovations for the Technical Professional	Exploiting Artificial Intelligence and Machine Learning With Office 365		Beyond Detection: Five Core Security Patterns to Prevent Highly Evasive Threats	
	5:00 p.m.	Deploying Cloud-Native Applications With Windows Containers	Networking Across Multiple Regions and Clouds	Recipes for Cloud Platform Selection for Advanced Analytics	Choosing the Right API Gateway to Protect Your Microservices	Navigating the Transition From Skype for Business Online to Microsoft Teams (Office 365)	The IoT Onslaught Will Change the Way You Test				Solution Path for Expanding a Mobility Strategy Into a Unified Workspace Strategy
THURSDAY AUGUST 23	7:00 a.m.	Registration					Attendee Breakfast				
	8:30 a.m.	Automate Cloud-Native Operations With Serverless Computing	Proper Self-Service Enablement Will Kill Shadow IT Forever	Cognitive Search Brings the Insight Engine Within Reach	Become an Agile Superhero: Skills and Practices to Succeed	VDI, DaaS or Hybrid? The Best Virtual Desktop Approach for Your Business	Assessing 5G for IoT: Where is the Cellular Magic?	Case Study	Case Study		
	10:15 a.m.			Oops, Don't Forget Dev/ Data(Ops) for Big Data	Case Study	Best Practices for Migrating Content and Collaboration to Office 365	Securing the Internet of Things: An Architectural and Risk-Driven Approach	Case Study	Ten Essential Skills of the Modern Software Architect		
	11:15 a.m.	Gartner Closing Keynote Technology Convergence: The Foundation of the Digital Business Kirk Knoernschild, Vice President, Gartner Research
